

ABOUT US

Quality Control Center (QCC) (formerly Central Testing Laboratories (CTL)), Lahore was established in 1956 under the administrative control of Ministry of Industries & Production (MoIP) but later on merged to PSQCA through Act No. VI of 1996 under the Ministry of Science & Technology (MoST).

QCC as an integral part of PSQCA, is currently testing a broader range of food & non-food products under one roof as per Pakistan Standards. QCC-PSQCA has well qualified & trained pool of technical experts. These technically competent people with relevant experience & expertise help you improve quality of product thereby increasing market worth of your product brand.

OUR VISION

To be the model scientific institution aimed at elevating the level of advanced technology in Pakistan.

OUR MISSION

A customer driven organization looking forward to provide technical services to catalase rapid Industrialization.

QCC-PSQCA is carrying out all testing activities as per ISO/IEC 17025 & Pakistan National Accreditation Council (PNAC) requirements based to Good Laboratory Practice and Technical Application within the framework of management standards.
